DETAILED ACTION

Claim Rejections - 35 USC § 112

Claim 50 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is still not clear what the three claimed dimensions are referring to.

Claim Rejections - 35 USC § 102

Claim 50 is rejected under 35 U.S.C. 102(b) as being anticipated by Kirsten. See the previous office action for this rejection.

Allowable Subject Matter

Claims 29-49 are allowed.

Response to Arguments

Applicant's arguments filed 4/27/06 have been fully considered but they are not persuasive. Applicant first argues that there is no concave inner or convex outer surface in Kirsten. This is puzzling to the examiner since element 3 of Kirsten clearly has a concave inner surface and a concave outer surface. Applicant next argues that there are no grooves in Kirsten extending from the outer surface towards the inner surface. This too makes no sense to the examiner because grooves 27 clearly extend from the outer surface towards the inner surface. With the indefiniteness noted above i.e. problems defining the directions claimed, Kirsten meets the claimed subject matter.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
